New Year Wishes!

Is this the year? Many families living in inadequate housing ask themselves this question every year. Is this the year that my family will no longer have to live in a single room? Is this the year that my children will finally have a bed to sleep in instead of a sofa or on the floor? Is this the year that I will no longer have to bathe my children in a sink? Is this the year that my family can finally have a forever home? With your continued support, Pomona Valley Habitat will answer "Yes."

Pomona Valley Habitat Silver Anniversary

To know even one life has breathed easier because you lived -- this is to have succeeded.

Ralph Waldo Emerson

Pomona Valley Habitat for Humanity is turning 25!

Our service and work began 25 years ago in 1991 when a very dedicated group of individuals put their time and talents together to benefit the community. They were all volunteers. We have come a long way since those early days. From that time, we have provided a permanent home to 45 families; offering a stable environment to over 150 children. These children have had and continue to have the advantages that come along with homeownership; a healthy setting that includes educational opportunities and the stability to make and keep those precious childhood friends. We believe our founders, Ted and Mildred Woodson, Millie Moser-Smith and others, would be very pleased with our work overall as well as with our current builds for veterans. We presently have three projects going and upon completion of these three projects, we have two more plots of land coming our way.

Thank you to all of the cities, businesses, faith groups, and volunteers for all that you have done to partner with us throughout our first 25 years! We look forward to seeing what lies ahead for us and working with you all in the next 25 years.
